Children's Medical Vaccine Policy

Children's Medical Center believes that vaccines are the most important intervention we offer to our patients. We join the American Academy of Pediatrics (AAP) and the Center for Disease Control (CDC) in supporting the recommended vaccine schedule. This schedule has been rigorously studied for efficacy and safety.

While alternative schedules have gained in popularity, we firmly discourage families from using these schedules. Alternative schedules are poorly studied and their efficacy and safety have not been adequately demonstrated. Delaying vaccines puts children at risk for preventable diseases. If parents choose to "spread out" vaccinations, parents must decide which vaccines they will delay. Our providers recommend following the traditional vaccine schedule.

As of January 7, 2019, CMC only accepts new patients committed to vaccination. We are happy to develop a catch-up schedule for any patient that is behind on vaccines. This policy applies to vaccines which are required for daycare and school attendance. Certain vaccines such as HPV are exempt from our policy.

This policy also does not affect patients who were previously established with our practice. If you are transferring into our practice and have not previously been vaccinated, we will help you to set up a catch up schedule. This catch up schedule should begin within 60 days of your first visit. Failure to comply with this policy may result in the physician recommending that you seek another pediatrician.

Medical exemptions for vaccines will only be given to children with documented qualifying health conditions/reactions. Medical exemptions will NOT be given based on parental refusal to vaccinate.

If parents insist on refusing vaccination for their child despite our recommendations and overwhelming scientific data to support immunizations, we reserve the right to terminate the doctor-patient relationship. We do not maintain a list of practices that accept unvaccinated patients.

Many parents have questions regarding vaccines and we welcome these discussions. We want our families to feel well informed. Finding reliable vaccine information can be a challenge for families. We recommend families refer to **cdc.gov**, **aap.org**, or **chop.edu/centers-programs/vaccine-education-center**.
